Note: The massages offered are solely for the purpose of relaxation and wellbeing

INDIAN HEAD MASSAGE

This massage starts at your shoulders, back and neck. Slowly we work our way up to your scalp where the movements will encourage the flow of blood to your hair follicles. We end with giving your face a little treat as well. The massage can be done with or without oils, dressed or, for a better effect, directly onto your skin. If we use oils this will also nourish your hair, and it is best not to wash your hair straight away after the treatment

30 €

SPECIAL TREAT FOR YOUR BACK

Like our feet we tend to ignore our back!
So why not give your back an extra treat!
Your back will be cleansed and exfoliated before we will give it a relaxing massage.
To finish we will apply a mask to your back, which will do its work, while you relax a bit longer.
Not only will your back feel the benefits of the massage, your skin will also look and feel refreshed. Ready for the summer or special occasion!

50 €

LUXURIOUS HOLISTIC FACIAL

This lovely treatment will start with giving your face a thorough clean after which a lovely long massage will commence.
The massage will help relax your facial muscles and the stimulation of the blood circulation and facial lymph flow, will help to cleanse your skin from the inside.
After the massage a masker will be applied to nourish your skin. This gives you the time and chance to just lay there and enjoy the effect of the massage. After this treatment which takes about 70 minutes your skin will look relaxed and glowing!

50 €

LUXURIOUS HOT STONE TREATMENT

For this ultimate TREAT for your body you will have to allow about 1.30 hours.
We start with giving you a body brush. Next the hot stones will warm you through. They are helping you to relax your muscles before, whilst and after they are being massaged. The hot stones are also a good tool to help work on those tensed muscles.

(ONLY AVAILABLE FOR LADIES)
